SUPPLEMENTAL REQUEST FOR RECONSIDERATION UNDER 37 C.F.R. §1.116

This supplemental request is entered in the Office Action dated October 18, 2004, in the above identified patent application. This supplemental request is to correct an obvious error that presents an inconsistency in the record. The Office Action rejected claims based upon allowed application 10/200,794, under judicially created doctrine of obviousness-type double patenting. The response identifies the application number, but incorrectly identifies the patent number, which has resulted in an incorrect terminal disclaimer. A corrected terminal disclaimer is submitted for allowed application number 10/200,794, or United States Patent No. 6,824,555 B1, and is commonly owned by the assignee of the present application and has at all times been so owned. All other aspects of the REQUEST FOR RECONSIDERATION UNDER 37 C.F.R. §1.116, filed on January 11, 2005, remains the same except for applying the correct patent number, and filing a corrected Terminal Disclaimer using the United States Patent No. 6,824,555 B1.
